He called Silver City and talked to Marjorie or Margie. He talked over that phone twice. The first time he called, he told the woman over the phone that he had been looking at some cars and said he had two girls to come up there. He said they were nice looking girls. There was a call another night. He said the was Heinie and wanted to get some money, as he would leave the next merning. He called up to have some trunks taken to the depot."
